

Intellical MTC101 Laboratory Low Maintenance Gel Filled ORP/RedOx Electrode, 3 m Cable

Product #: MTC10103
ZAR Price: Contact Hach
Ships within 1 week

Intellical MTC101 is a digital, combination oxidation reduction potential (ORP/Redox) electrode with a non-refillable, gel-electrolyte reference and built-in temperature sensor. MTC101 has low maintenance needs thanks to a non-refillable gel-filled single open reference junction. The laboratory version of this metallic electrode is shockproof with its epoxy plastic body protecting down to the platinum sensing element. The Electrode is available with a 3 or 1 m cable. The MTC101 electrode is ideal for measuring ORP/RedOx absolute mV values in wastewater, drinking water and aqueous media applications. The MTC101 is not suitable for use with organic solvents.

Provides fast, stable response in a variety of applications

Intellical digital probes lock on the result when the measurement is stable, removing the guesswork in having a moving number. Additionally, the probe's large open reference junction provides maximum surface area between sample and reference electrolyte for fast measurement stability.

Ultimate traceability in measurement history

Stored time and date stamp for each measurement, operator and sample ID, calibration history, parameter, and probe serial number

User alerted when re-calibration is needed

No guesswork needed to provide most reliable and accurate results with each measurement.

Can be moved between meters without the need to re-calibrate or re-enter measurement settings

Ideal for a multi-user environment with multiple HQD series Laboratory and Portable meters

Specifications

Accuracy:	±0.02 mV or 0.05%, whichever is greater
Cable Length:	3 m
Electrode Type:	Standard
Junction:	Open Junction
Kit?:	No
Length:	175 mm
Method Type:	Laboratory: Non-Refillable Gel Reference Element
Parameter:	ORP
Product Kit:	Model: MTC301
	Accessories Included: None
Range:	±1200 mV
Reference system:	Ag/AgCl
Resolution:	±0.1 mV
Sensor material:	Epoxy

Sensor Type :	Platinum disc
Special Features:	Flat disc sensor for easy cleaning.
Temperature Accuracy:	±0.3 °C
Temperature Range:	0 - 80 °C
Temperature resolution:	0.1 °C
Test requirements:	Parameter Needed: ORP
	Minimum Sample Depth (mm): 20
Thermistor :	ATC
Warranty:	6 months
Weight:	0.15 kg
What's included?:	Intellical MTC101 Laboratory ORP/RedOx electrode with storage soaker bottle, 3 m cable, Test certificate, and Basic User Manual.

What's included?

Intellical MTC101 Laboratory ORP/RedOx electrode with storage soaker bottle, 3 m cable, Test certificate, and Basic User Manual.
