For comfortably transporting portable meters, accessories, and standard solutions.

### Convenient

The answer to hands-free portability of analytical testing equipment, these backpacks combine contemporary styling with innovative design.

### Customizable

The adjustable divider system allows you to create customized compartments to organize equipment just the way you like it.

### Ergonomic

Lightweight, thick padding material gives superior protection during transportation. A stitched foam back panel makes the backpack well suited for either short or long testing adventures. The sternum buckle system adds support when carrying heavier equipment.

A telescoping handle system and a comfort pad provide additional comfort when used as a backpack. The large backpack can also be used as a wheeled bag or a backpack with in-line skate wheels.
