The Hach soft-sided backpack boasts an innovative design that securely carries all your testing equipment with you wherever you go.

The perfect solution for water treatment professionals or anyone looking to carry analytical testing equipment without all the hassle!

The answer to hands-free portability for analytical testing equipment, these backpacks combine contemporary styling with innovative design
The answer to hands-free portability of analytical testing equipment, these backpacks combine contemporary styling with innovative design.

Customizable
The adjustable divider systems allow you to create customized compartments to organize equipment just the way you like it.

Ergonomic
Lightweight, thick padding material gives superior protection during transportation. A stitched foam back panel makes the backpack well suited for either short or long testing adventures. The sternum buckle system adds support when carrying heavier equipment.
